

## Understanding Challenging Behaviour in Autism

SENDIASS is offering an interactive webinar for parents and carers exploring behaviours commonly seen in ASD, that may be considered 'challenging.'

Sam, Manager of [the Curly Hair Project](#) will be presenting.

The webinar will explore:

- The main causes of challenging behaviour
- Rigidity, avoidance, and repetitive questioning
- Self-injurious behaviour
- Improving the environment and improving communication to change these behaviours

You can interact with Sam using the chat box or just listen.

After the webinar you will be sent a recording to watch again in your own time and/or share with family members over 7 days.

## Understanding Challenging Behaviour in Autism

November 7th

8pm – 9pm
