Construction intervention to support social communication

SENDIASS is hosting a relaxed online session for parents and carers exploring how construction intervention can help children and young people develop social communication skills in school and at home.

The presentation will be delivered by specialist teachers from Suffolk's Communication and Interaction Service. This is one of the 5 specialist education services in Suffolk which support schools to support pupils with different special educational needs.

The session will explore:

- what construction intervention is
- how it can help your child develop social communication skills in school;
- how the same principles can be used at home.

13th July 2023 10am – 11am
