We're committed to co-production and working together. We want our information to be shaped by you, and created with you. Everyone's views are important and everyone has something to contribute.

We promise to...

Welcome you and help you to feel safe and comfortable.

Give you the **time and space** you need to share your views.

Be **honest** with you.

Listen to you and respect your views, without judgement.

Decide **together** what to focus on.

Be **open** with how decisions are made.

Avoid using jargon so things make sense.

Value **everyone's** opinion.

Let you know about progress **every step** of the way.

Share how **your contributions** have shaped our information.

Will you commit to co-production too?
