

We used to live in Essex and was attending a support group, they recommended SENDIASS so I've known about it for a long time.

We'd still be in dire straits without SENDIASS. We really appreciate their knowledge/help. It's been a very long journey - SENDIASS helped with wording/deadlines.

They were a wealth of knowledge when you find yourself lost without a path.

Having no experience, it was very difficult and in addition we very much welcomed having SENDIASS in a meeting with us at school.

Definitely would recommend SENDIASS. Going it alone you feel isolated. SENDIASS were so kind and understanding.
