

I first contacted Sendiass to get advice with my child's EHCP.

The world of having a child with additional needs was very new to me and I was so comforted by the knowledge and kindness of the Sendiass team.

Each time I have contacted Sendiass, they have provided me with the information and knowledge I needed.

They're always so helpful and provide an invaluable listening ear that is so beneficial.

I would definitely recommend anyone who has questions relating to special education to contact Sendiass.

Their advice and support service is extremely useful.

Emily,
