

I contacted SENDIASS because my 19-year-old son had been issued a draft EHCP, but we were then advised that a final plan would not be issued.

Having someone to check points of law and code I'd found, and to chat through how I felt and how things were going, was really helpful.

It made me feel like someone cared.

Definitely contact (SENDIASS), any and every piece of advice is worth getting and having a point of contact to speak to is so helpful.
